Software Assurance

SwA Working Groups

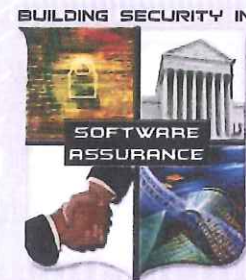

June 21 - 23, 2010

Booz Allen Hamilton 3811 N. Fairfax Drive,
Suite 600, Arlington, Virginia 22203

SwA Forum

Sept. 27 - Oct. 1, 2010

NIST 100 Bureau Drive
Gaithersburg, Maryland 20899

The Software Assurance Group (SwA) Forum and Working Groups bring together members of government, industry, and academia to discuss and promote software integrity, security, resilience, and reliability.

The September SwA Forum will help you better understand what others are doing and extend your network of collaborators. The June Working Group sessions will focus on actions identified as a result of the March 2010 SwA Forum, including:

- Adopting Software Assurance Through Education and Training
- Benchmarking Development Practices
- Measuring Product Characteristics throughout the SDLC

Co-sponsored by organizations in DoD, DHS, and NIST, the SwA Forum and Working Groups offer a chance to actively participate in driving SwA initiatives forward.

Attendance at the SwA Forums and Working Groups qualifies for continuing professional education credits from International Information Systems Security Certification Consortium, Inc., (ISC)2 and Information Systems Audit and Control Association (ISACA).
